G8 begins today in L'Aquila, Italy where India will push forum to accept its concerns on global warming and on coordinated stimulus

SOUND OF MUSIC

Launched in 1979, the Walkman TPS L2 is the grand-daddy of today's portable music players. But back then it was simply the device that let you listen to your favorite beats in peace where no one, and particularly nagging parents, could disturb you and you them. It was the music box that helped you pick up the pace, drown out street noises and run to your own tunes. It was the prized possession that got you noticed in school and college. In 2009 Sony Walkman celebrates its 30th birthday.

Celebrate by listening to your favorite music!!!

- Reliance, Idea most congested. Tata Tele least choked, says TRAI in its monthly report
- A day after the government announced record market borrowings to boost demand, bankers anticipate rising interest rates in the next 6 months
