DIGI YATRA

digiyatra

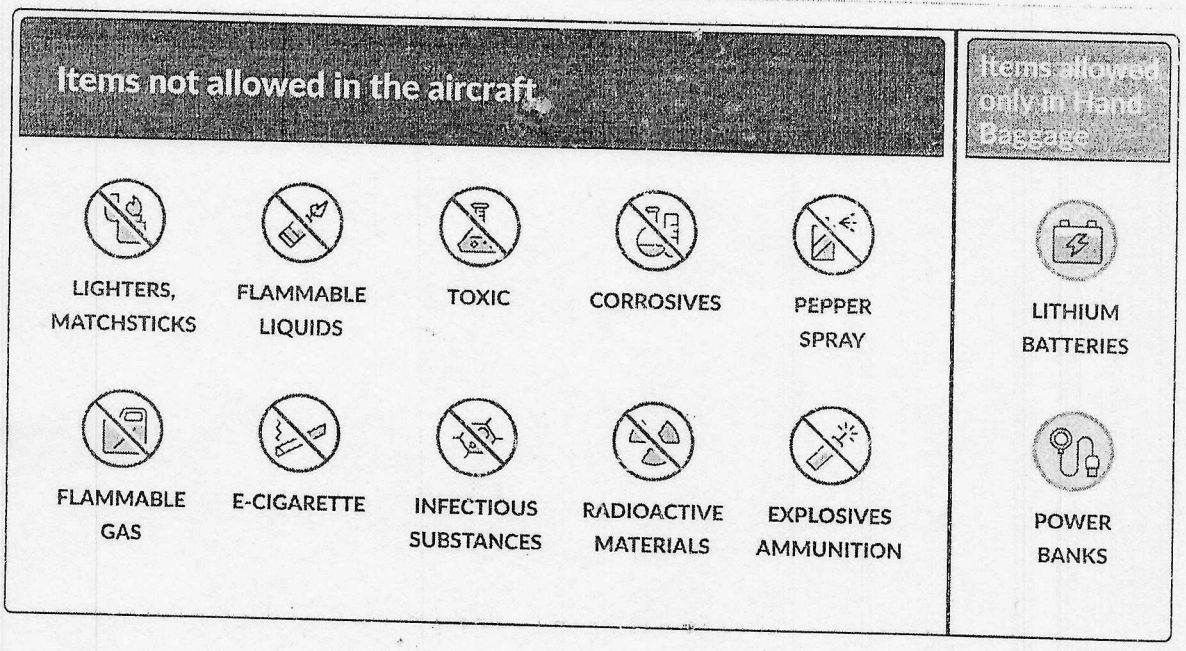

Avoid Long Queues at the Airport with DigiYatra

Use DigiYatra — the Ministry of Civil Aviation's mobile app to enjoy a hassle-free airport experience, for your upcoming flight. It enables you to activate face scan for check-in at the airport with 2 easy steps:

Step 1: Pre-verifying your identity using Aadhaar Card details

Step 2: Updating your upcoming flight's boarding pass

Know More

IMPORTANT INFORMATION

For a convenient travel, follow these guidelines

- **Check-in Time :** We advise you to reach the airport atleast 3 hours before departure. Check-in counter generally closes 60 minutes before scheduled departure. It may vary from airline to airline and so it is advisable to check with the airline once.
- **DGCA passenger charter :** Please refer to passenger charter by clicking Here
- **Availability of Boarding Pass: :** Once web check-in is completed, your boarding pass will be available within 6 hours of your flight departure.
- **Check travel guidelines and baggage information below: :** Carry no more than 1 check-in baggage and 1 hand baggage per passenger. If violated, airline may levy extra charges.
- **Unaccompanied Minors Travelling: :** An unaccompanied minor usually refers to a child traveling without an adult aged 18 or older.Please check with the airline for their rules and regulations regarding unaccompanied minors, as these can differ between airlines.

- **Valid ID proof needed :** Carry a valid photo identification proof (Driver Licence, Aadhar Card, Pan Card or any other Government recognised photo identification)
- Please do not share your personal banking and security details like passwords, CVV, etc. with any third person or party claiming to represent MakeMyTrip. For any query, please reach out to MakeMyTrip on our official customer care number.

You can view all **cancellation, date change and baggage related information** here , If you want to manage your booking, you visit **MyTrips** section using this link

The Principal

Jagan Institute of Management Studies

Rohini.

Subject: Approval to attend College SPOC Felicitation workshop to be held on July 12, 2025 at IIT Kanpur Outreach Auditorium, Kanpur.

Respected Mam

The NPTEL Office IIT Kanpur is extending the warm invitation for the college SPOC felicitation ceremony and workshop to be held on July 12, 2025 at IIT Kanpur Outreach Auditorium, Kanpur.

This time our college is also eligible for **Special Active Status Ranting Award as " Prospects"** and " **Best Rating Point Improvement**" certificate based 700 + registration and more that 75% are certified.

The NPTEL office will reimburse the travel cost, but accommodation charges will not be reimbursed.

I require the approval of Rs 4000 (For Accommodation and Food Expenses) and also the OD for 11th and 12th July, 2025. As I need to book train for 11th July and felicitation from 8:00 a.m. onwards on 12th July, 2025

The train travel tickets of AC Chair will be reimbursed by IIT Kanpur after the workshop.

The invitation mail with details is attached herewith the application

Regards

Priyanka

Dr. Priyanka Gandhi.

Associate Professor.

Jagan Institute of Management Studies.

Dear SPOCs,

Thank you for registering with IIT Kanpur, for the SPOC Felicitation Workshop. With immense pleasure we confirm your participation in the workshop.

Kindly note that:
Date of the Workshop: 12th July, 2025
Venue of the Workshop: **Outreach Auditorium, IIT Kanpur**
Timing of the Workshop: 8:00 AM - 1:00 PM

Please reply to the mail (either in affirmation or in negation), so that we can arrange for logistics at our end.

Please note the TA rules as mentioned in the Google Form. Kindly note that we do not provide any stay arrangement. However, if you are arriving in the morning and require some assistance for getting ready for the workshop, do let us know.

Kindly join the exclusive Felicitation WhatsApp group for workshop-related updates:
https://chat.whatsapp.com/FhMcQtdZRUEEHDMBkzBp75

Thanks and regards

Nptel Local Chapter : SPOC Felicitation and Awareness workshops - Jan-Apr 2025 semester

1 message

NPTEL Local Chapter IIT Madras <localchapter@nptel.iitm.ac.in>
Reply-To: NOC-SPOC@nptel.iitm.ac.in
To: NOC SPOC <NOC-SPOC@nptel.iitm.ac.in>

Dear SPOCs,

We are excited to announce the SPOC felicitation and Awareness workshops for the Jan-Apr 2025 semester.

South Zone - IIT Madras - July 5, 2025 (Saturday)
- for SPOCs from Andhra Pradesh, Karnataka, Kerala, Tamil Nadu, Telangana and Pondicherry

North Zone - IIT Kanpur - July 12, 2025 (Saturday)
- for SPOCs from Delhi, Haryana, Himachal, Jammu & Kashmir, Madhya Pradesh, Punjab, Rajasthan, Uttar Pradesh & Uttarakhand

West Zone - IIT Bombay - July 19, 2025 (Saturday)
- for SPOCs from Maharashtra, Goa, Gujarat

Institute	Date / Day of SPOC workshop	Venue	Contact Details	Link to register for workshop
IIT Madras (South Zone)	July 5, 2025 (Saturday)	Terrace Hall, Food for thought building, IIT Madras, Chennai - 600036	**Name : Divya D** **Contact no : 9176555426** **Email id : localchapter@nptel.iitm.ac.in**	Form is closed
IIT Kanpur (North Zone)	July 12, 2025 (Saturday)	**Outreach Auditorium, Indian Institute of Technology, Kanpur - 208016, Uttar Pradesh**	**Dr. Angana Sengupta** **Contact no : 9451423735** **Email id : npteliitk.lc@gmail.com**	https://forms.gle/9ge9KibADdHipsPcA
IIT Bombay (West Zone)	July 19, 2025 (Saturday)	LH 102, 1st Floor, Lecture Hall Complex, Near Shiru Cafe, IIT Bombay, Powai, Mumbai-400076.	**Nisha Thakur** **Contact no: 9167843474** **Email id : nptel.iitb.lc@gmail.com**	https://forms.gle/tQ1UyVxU6vhCNNFcA
IIT Kharagpur (East Zone)	**<<Will be released soon>>**			

New SPOCs

We are requesting SPOCs of recently established Local Chapters also to attend the event.
This will help you understand the processes and steps involved and also about the upcoming initiatives.

After filling out the registration form, you will receive the confirmation email from the concerned institute.
We look forward to your whole-hearted support.

Thank you.
Warm Regards,

Divya D

The Principal
Jagan Institute of Management Studies
Rohini, Delhi

Subject: Request for OD and Approval for STC on Data Science and Machine Learning

Respected Madam,

I would like to request your kind permission to attend a Short-Term Course (STC) on "Data Science and Machine Learning" scheduled from 28th July to 2nd August 2025 at NITTTR, Chandigarh.

I also request approval for On Duty (OD) leave for the mentioned dates and reimbursement of the training fee of ₹590, along with travel and accommodation expenses. The course will contribute to enhancing my knowledge in emerging technologies and benefit academic delivery.

Kindly consider my request for approval.

Thanking you,

Yours sincerely,

23/6/27

Dr. Deepti Khanna
Associate Professor, IT

To,

The Head of Institution,

Jagan Institute of Management Studies,

Sector-5, Delhi.

SUBJECT: Request for Approval of Publication Charges for Journal (SCOPUS).

Dear Madam,

Our paper titled "From Pilot to Scale: A Structured Framework for Generative AI–Driven Business Transformation" has been accepted for publication in **Advanced Engineering Science** **ISSN:2096-3246**. I request you to approve the publication charges of INR 10000 for the same Acceptance letter is attached herewith.

Thanking You,

Dr. Shivani Vats

Dear Author,

Congratulations!!!

Your Manuscript " * From Pilot to Scale: A Structured Framework for Generative AI–Driven Business Transformation * " has been accepted for publication in Journal Advanced Engineering Science

Journal Name: Advanced Engineering Science
ISSN:2096-3246
Scopus coverage years: From 2017 to 2026
Journal Link* : https://advancedengineeringscience.com/
Scopus Link : https://www.scopus.com/sourceid/21100805730
Subject Area : *Multidisciplinary*
Publication Duration: 7 days

Note: We assure only publication of articles in the given mentioned website of Journal. We don't assure the Indexing part as it's not in our control.

Plz make the payment and after payment plz share receipt
Publication Charge- 10K
Account name- Dayanath Mishra
Account No- 489401500047
RTGS/NEFT/ IFSC-ICIC0004894
ICICI Bank

Thank you

Manuscript Acceptance Letter

Date: April-27, 26

Dr. Shivani Vats

We are pleased to inform you that your manuscript entitled " **From Pilot to Scale: A Structured Framework for Generative AI–Driven Business Transformation**" submitted to **Advanced Engineering Science (ISSN: 20963246),** has been officially accepted for publication following the peer review process.

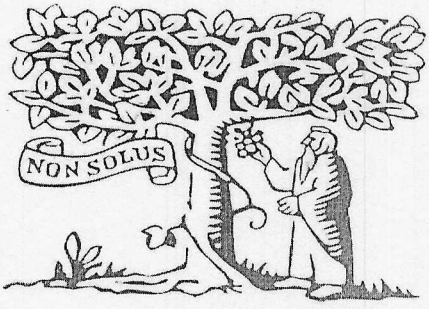

If you have any questions or require further details, please do not hesitate to reach out to us at your convenience.

Status: Accepted

The article is scheduled for publication in Upcoming Issue.

Congratulations on your achievement! We look forward to your continued contribution to the academic growth.

From Pilot to Scale: A Structured Framework for Generative AI–Driven Business Transformation

Dr. Shivani Vats
Assistant Professor
Department of Information Technology, Jagan Institute of Management Studies
Sector 5 Rohini, New Delhi, India
drshivanivats@gmail.com

Abstract

Generative Artificial Intelligence (GenAI) is rapidly transforming business operations by enabling advanced capabilities in content generation, decision-making, and process innovation. While organizations are increasingly experimenting with GenAI technologies, a significant gap persists between pilot-stage experimentation and enterprise-level implementation. Existing studies primarily focus on the applications and benefits of AI, with limited attention to structured approaches for scaling GenAI in a responsible and sustainable manner.

This study addresses this gap by examining the role of GenAI as a catalyst for business transformation and process innovation, with a particular focus on pilot-based implementation strategies. Adopting a narrative literature review methodology, the study synthesizes insights from academic research, industry reports, and case studies published between 2019 and 2025. The analysis identifies key challenges in GenAI adoption, including governance issues, data quality concerns, ethical risks, and workforce resistance, which hinder large-scale implementation.

Drawing on theoretical perspectives such as Dynamic Capabilities Theory, Resource-Based View (RBV), Institutional Theory, and risk management frameworks, the study proposes a structured and integrative framework for GenAI adoption. The framework emphasizes a phased approach involving pilot testing, risk assessment, governance integration, and scalable deployment.

The findings highlight that successful GenAI implementation requires not only technological readiness but also alignment with organizational strategy, robust governance mechanisms, and continuous workforce development. This study contributes to the existing literature by offering a practical and actionable pathway for transitioning from experimentation to enterprise-scale adoption. It also provides valuable implications for business leaders and policymakers seeking to leverage GenAI responsibly while maximizing its transformative potential.

Keywords: Generative AI, business innovation, ChatGPT, content creation, software development, personalization, productivity, AI ethics, governance, scaling AI, digital transformation

Next-Gen Visual Processing with Generative AI

Bhavna Galhotra
Assistant Professor, Jagan Institute of Management Studies

Abstract

With the advancements and developments of the professional themes, the user is encouraged to work on the technical visual effects and also highlights the roles and responsibilities of the creators which have developed the content with the use of highly intensive technologies As the AI is a continuous process to develop the applications in the reality-based contents that offers both the tremendous opportunities and the deep challenges for example, application of the generative models to work on the video streaming that has a potential to change the nature of the event experience which enables the dynamic changes and addition to that which responds in real-time to view the demand. But the innovation also creates important questions regarding the authenticity of the live material and the possibility of manipulation, especially in the applications and such developments require a complete framework to have a secured functionality. The continuous evolution of the generative AI not only extends the branches and the limitations of the creativity but also forces us to redefine the visual trustworthiness in an era which technology is capable of being so close to the reality

1. Introduction

Artificial intelligence is interwoven into our daily lives, often operating behind the scenes to shape our interactions with technology [1] Generative AI, a subset of artificial intelligence, is rapidly evolving and demonstrating impressive capabilities across various domains, including image and video processing [2] [3]. Generative AI possesses the remarkable ability to produce high-quality artistic media, encompassing visual arts, concept art, music, fiction, literature, video, and animation [4]This technology excels at creating novel data samples that closely resemble the examples it was trained on This capability has profound implications for how we create, manipulate, and interact with visual content [5]Generative AI models use advanced deep learning, transfer learning algorithms, and machine learning techniques to discern patterns and relationships from existing data to generate new content that mirrors the style, tone, or structure of the original [6]Generative AI's ability to learn from diverse datasets and produce a broad spectrum of multimedia outputs offers significant potential for automating content creation, personalizing user experiences, and unlocking new creative avenues for businesses and individuals [7] [8]Generative AI is poised to reshape industries from entertainment and marketing to healthcare and education, as well as virtual reality [9].Generative AI is restructuring the complete creative and automated process, it is becoming a professional tool for all the creative people who are in content writing and audio video creation. In the audio video creation

of the generative AI. All these approaches and aspects have actually assisted in minimizing the risks that are related to AI generated contents and that can create content that can be acknowledged in this fast-changing requirements and needs of the user
